REPORT OF THE
COMMISSIONER OF THE
BUREAU OF THE CENSUS
ON THE
CENSUS OF 1900

The following table shows the population of the United States in 1900, by race, color, and sex, and by age and sex, for the several States and Territories, and for the United States as a whole. The population of the United States in 1900 was 76,212,367, an increase of 27,947,347, or 58.5 per cent, over the population in 1880. The increase in population since 1880 has been due to an increase in the number of births, and to a decrease in the number of deaths. The increase in the number of births has been due to an increase in the number of marriages, and to a decrease in the number of divorces. The decrease in the number of deaths has been due to an increase in the average duration of life, and to a decrease in the number of deaths from disease and accident.

The population of the United States in 1900 was 76,212,367, an increase of 27,947,347, or 58.5 per cent, over the population in 1880. The increase in population since 1880 has been due to an increase in the number of births, and to a decrease in the number of deaths. The increase in the number of births has been due to an increase in the number of marriages, and to a decrease in the number of divorces.
